

Business Continuity Policy

As a supplier of battery-related products, which serve as a driving force for society and the economy, We are committed to ensuring the continuous supply of these products even during disaster situations.

Additionally, we strive to support our business partners and contribute to regional reconstruction.

<Action Agenda>

In our pursuit of business continuity, we emphasize the following principles:

① Protection of Lives and Safety:

Ensuring the safety of our employees, their families, and visitors to our company is our top priority.

② Contributing to Regional Reconstruction:

As a member of the local community, we collaborate with regional stakeholders to support regional reconstruction.

③ Preservation of Physical Resources:

We protect and restore the facilities and equipment necessary for product supply and other essential functions.

④ Sustaining Product Supply:

We maintain the supply of products and services to our customers, taking into account the demand during disasters.

⑤ Supporting Business Partners:

While focusing on our own recovery, we also assist our business partners in their recovery efforts.
