Review

The Latest Status Art for Development of Fuel Cell Vehicles	Shogo Watanabe	1
---	----------------	---

Technical Reports

Operating Characteristics of 30kW Electric Energy Storage System by Use of Tubular-Type VRLA Cells with Granular Silica	Haruhiko Mizuta Toshiki Yoshioka Masashi Iwata Yuichi Shimizu Masayoshi Hiramatsu	6
---	--	---

Performance of the Mini Electric Vehicle with Lithium Secondary Battery	Masanao Terasaki Jun-ichi Toriyama Norihito Fukuhara Hajime Ishida Takuji Uchibori Minoru Mizutani Masanori Yamachi	10
--	---	----

Performance of Lithium Ion Cells with Assembly Integrated-Elements through Porous Polymer Electrolyte	Masazumi Segawa Shuji Hitomi Hideo Yasuda Masanori Yamachi	16
---	---	----

Spectroscopic Diagnostics and Numerical Simulation of HID Lamp Plasma (II) — Numerical Simulation of a Metal-halide Lamp — II . Method of Simulation and Results	Seishiro Hashiguchi Makoto Kubo Kunihide Tachibana Kazuya Hatase Shigeyuki Mori Jiro Honda	21
---	--	----

Spectroscopic Diagnostics and Numerical Simulation of HID Lamp Plasma (III) — Plasma Diagnostics of Metal-halide Lamp — I . Laser - Induced Fluorescence Spectroscopy	Kazuya Hatase Makoto Kubo Kunihide Tachibana Seishiro Hashiguchi Shigeyuki Mori Jiro Honda	28
--	--	----

Technical Explanation

Long Life Valve Regulated Lead-Acid Battery “PWL12V100” for Telecom Applications	Kazuya Akamatsu Takuji Nakamura Shuichi Manyu Toshio Ohara Masaharu Tsubota	33
---	---	----

New Products		38
---------------------------	--	----

Recent Publications by GS Authors (December, 2001-May, 2002)		42
