

## CONTENTS

History and Future Prospects of Power Electronics .....	1
Formation of "White material" Layer at Terminal Connection Parts of Lead Acid Battery .....	4
Development of Cathode and Anode Active Materials for Lithium Ion Battery .....	13
Development of High-temperature Resistant SLI Maintenance-free Battrey .....	21
Development of Small Prismatic Nickel-Metal Hydride Rechargeable Battery, "H850PF" .....	28
The Current State of Active Power Filtering Converters Research and Development .....	35
Introducing Yuasa Battery (Europe) GmbH .....	43
NEW PRODUCTS .....	47
